Washington, D.C. 20231SUPPLEMENTAL PRELIMINARY AMENDMENT

Sir:

Prior to its examination and supplemental to the preliminary amendment filed May
21, 2001, please amend the above-identified application as follows:IN THE ABSTRACT:

Please replace the present Abstract of the Disclosure with the following:

163402

--In a gas laser device, a laser gas sealingly stored in a chamber is
excited using a discharging electrode that is electrically discharged. Laser
light produced by the electrical discharging is totally reflected by a total
reflection mirror. An output window partially reflects the laser light and
